Dear Mr. Krohn:

We have reviewed the 1950 Los Alamos Scientific Laboratory Report LA-1151, entitled "Distribution and Excretion of Plutonium Administered Intravenously to Man" and have no objections to your removing the Official Use Only classification. We have contacted Dr. Hemplemann at the University of Rochester and have obtained concurrence in removing the Official Use Only classification. A copy of the correspondence from the University of Rochester is enclosed.

I thank you for bringing this to our attention. Please contact me if I can be of further assistance.

Sincerely,

John R. Totter
