Just as Physicians Answering Services are there to muffle the screams of the dying, so are the DOE's Call for public Comment on any cleanup at the INEL.

All of the plans, promises and lies over a long period of years have come to nothing and the fact remains this Nuclear Waste is above our drinking water which comes from the Snake River Aquifer.

You hear the screams of the dying and do nothing - The federal government lies too easily (I lived in Utah in the '50's) we need help but now scoping, comments, promises and evaluations are there to muffle our screams.

Blessed is he who expects nothing for he shall not be disappointed!

RESPONSE TO PUBLIC COMMENTS ON THE  
OU 10-06 RADIONUCLIDE-CONTAMINATED SOILS REMOVAL ACTION

Thank you for sharing your opinion of the INEL's cleanup program. The removal action documentation for operable unit 10-06 has been reviewed independently by EPA and IDHW who confirm the need for this action to protect human health and the environment.
