### What's Your Opinion?

The agencies want and need to hear from you to effectively decide what actions to take at the Idaho Chemical Processing Plant.\*

Comments:

31 Oct 1995

As a visitor through the Chemical Processing Plant under construction around 50 years ago I am very interested in the clean-up process now going on. It's too bad so many mistakes were made in past years. I think your recommendations are the best available. Please continue to protect the Snake River aquifer from ANY serious contamination.
