**SUBJECT: Transmittal of Draft Final Scope of Work for the Waste Area
Group 7 Pad A RI/FS at the INEL - ERD1-088-91**

Dear Mr. Pierre and Mr. Nygard:

Enclosed for your review are two copies of the Draft Final Pad A RI/FS Scope of Work (SOW). This document was prepared in accordance with the predecisional draft of the INEL Federal Facility Agreement and Consent Order Action Plan.

Attached to the SOW is a list of the EPA and IDHW comments with the corresponding DOE comment resolution. This list reflects the discussions in our May 17, 1991, telephone conference call.

Please note that two weeks have been added to the overall schedule to allow adequate time for EPA and IDHW review of the technical memorandum on the preliminary risk assessment results and for the incorporation of these comments into the following Remedial Investigation/Baseline Risk Assessment Report.

With your approval, this Draft Final SOW will become final 30 days from the date of this letter. If you have any questions, please contact me at (208) 526-1148 or G. A. Hula at (208) 526-9899.

Sincerely,

Jerry Lyle, Director
Environmental Restoration Division
