Subject: IDENTIFICATION OF RADIOACTIVE MIXED WASTE STREAMS AT THE IDAHO
CHEMICAL PROCESSING PLANT -DDN-01-85

In February, 1985, DOE-ID requested that each INEL contractor appoint a representative to act as a contact with EG&G for the purpose of identifying radioactive mixed waste streams generated at the INEL. The contact person for WINCO has been designated to be Ms. Susan C. Cooper.

Ms. Cooper was initially contacted on March 19, 1985. Numerous conversations have taken place since then, and in each instance Ms. Cooper has stated that she has several other projects with priority and hasn't been able to start on the identification of WINCO's radioactive mixed waste streams. This is being brought to your attention because the input from WINCO is needed as soon as possible in order to meet the deadline for the radioactive mixed waste options study.
