CHANGE IN TITLE AND NAME OF DRAFT OPERABLE UNIT (OU) 10-06 REMEDIAL INVESTIGATION/FEASIBILITY (RI/FS) STUDY REPORT FOR PLACEMENT INTO THE ADMINISTRATIVE RECORD - DKJ-13-95

Dear Ms. Kroupa:

As previously discussed, the OU 5-05/6-01, SL-1/BORAX-1 Record of Decision (ROD), referenced two technical documents to support the ROD which were developed based on the Draft OU 10-06 RI/FS report, Radionuclide Contaminated Soils at the Idaho National Engineering Laboratory, INEL-94/0037, Rev. 0, April 1995.

This OU 10-06 Draft RI/FS report has subsequently been finalized but is now titled "Engineering Evaluation/Cost Analysis for Operable Unit 10-06 Radionuclide-Contaminated Soils Removal Action at the Idaho National Engineering Laboratory, INEL-95/0259, Rev. 0, June 1995."

In order to maintain consistency in the Administrative Record and to support the referenced material in the OU 5-05/6-01 ROD, please submit this letter to Debra Gamble, Lockheed Idaho Technologies Company, MS 3922 for placement in the OU 10-06 Administrative Record.

Sincerely,

A handwritten signature in black ink, appearing to read "Doug K. Jorgensen", is written over a horizontal line.

Doug K. Jorgensen  
Environmental Restoration
