Mr. John D. Ledger
Acting Bureau Chief
Hazardous Material Bureau
Idaho Department of Health and Welfare
1410 N. Hilton Road
Boise, ID 83706

SUBJECT: Characterization Data and Other Information Regarding
COCA Units CPP-39, -51, -54, -59, and -64 - ERD-105-91

Dear Mr. Ledger:

Please find enclosed for your information and use one copy of each report summarizing drilling and sampling activities at the subject COCA units. A set of reports has also been forwarded to Mr. Rensay Owen, in your Idaho Falls office, in response to his request for site characterization data, sample locations, sampling depths, and sample collection methods for COCA activities on these units. While some of this information has previously been provided to your office in the form of data sheets, technical work plans, closure plans, and closure reports, the enclosed reports provide a more succinct compilation of that information.

If you or your staff have any questions about this information, please feel free to contact Ms. Lisa Green at (208) 526-0417 or Mr. Walter Sato at (208) 526-0193 of the Environmental Restoration Division.

Sincerely,

A handwritten signature in black ink, appearing to read "T. F. Burns, Jr.", written over a horizontal line.

T. F. Burns, Jr.
Deputy Assistant Manager
Environmental Restoration
and Waste Management
